

How to access internal web based applications

MHWirth employees can remotely connect and access a number of web based applications such as email, the intranet and Synergi from any PC or laptop.

Please note: A security token will be needed. You can learn more about security tokens by visiting this page.

1. Go to the front page of www.mhwirth.com. Click Remote Access up in the right corner of the page and then on the remote access login box positioned in the lower-right hand corner of the drop-down menu or on the footer under Connect.
2. Click on the Global Web Access link, located at the bottom of the page.
3. Enter the following details:
 - Account user ID (Your Windows ID)
 - Password (Your internal password normally used to logon to your computer)
 - Security code (Your PIN number and the digits generated by your security token)
 - Click the Log on button
4. The MHWirth employee access portal will now be displayed. Click on the service you require.

Please note:

If you require access to applications hosted via the Australian Citrix Access portal: click on the Legacy Applications link.
